SUBJECT INDEX

Audiology

Auditory Testing

An Averaged Electroencephalic Audiometric Sensitivity (AEA-S) Procedure (David C. Shepherd and Kathy McCarren) 503-522.
Clinical Equipment for Measurement of Middle-Ear Muscle Reflexes and Tympanometry (Gunnar Liden, Gote Bjorkman, and John L. Peterson) 100-112.
A Critique of Speech Recognition Testing Preliminary to Hearing Therapy (Martin C. Schultz) 195-202.
Letter: Pediatric Hearing Evaluations (Thomas A. Zachman and Lynn Hahn) 274.
Speech Audiometry: Earphone and Sound Field (Donald D. Dirks, Richard W. Stream, and Richard H. Wilson) 162-176.
Unusual Findings in a Bekesy Audiogram (L. J. Upfold) 132-137.
Why Operant Audiometry—A Consideration of Some Shortcomings Fundamental to the Audiological Testing of Children (I. St. James-Roberts) 47-54.

Hearing Aids

Direct Hearing Aid Referrals: A Three-Year Report (Lee A. Wilson and Craig O. Linnell) 233-241.
A Follow-Up Study of the CROS Hearing Aid (Hedda Aufricht) 113-117.

Auditory Disorders

Auditory Disorder Following Bilateral Temporal Lobe Insult: Report of a Case (James Jerger, Larry Lovering, and Max Wertz) 523-535.
Bilateral Acoustic Neuromas (Beth Urban and Thelma Hilger Generous) 548-552.
Genetic Hearing Loss with No Associated Abnormalities: A Review (Bruce W. Konigsmark) 89-99.
Letter: More on Hearing Loss Secondary to Maternal Rubella (Thomas E. Borton and Earl W. Stark) 138-139.
Site of Lesion in Cases of Hearing Loss Associated with Rh Incompatibility: An Argument for Peripheral Impairment (Robert Goldstein, Carol C. McRandle, and Leslie B. Rodman) 447-450.
Speech, Language, and Hearing Problems in the Laurence-Moon-Biedl Syndrome (Dean C. Garstecki, Thomas E. Borton, Earl W. Stark, and Brenda T. Kennedy) 407-413.
Treatment of a Case of Cerebral Palsy with Hearing Impairment (James L. Fitch) 373-378.

Rehabilitation
Aural Rehabilitation of the Elderly (Edwin L. Harless and Ralph R. Rupp) 267-273.

Speech Pathology

Aphasia
Aphasia Complicated by Hypercalcemia (Mary Cronin Schwebel and Robert H. Brookshire) 542-547.
Aphasia Therapy: A New Look (Joseph M. Wepman) 203-214.
Letter: Comment on "Objective Indices of Severity of Chronic Aphasia in Stroke Patients" (Gerald J. Canter) 140-141.
A Comparison of Three Tests of Auditory Comprehension for Adult Aphasics (Leslie Smith Needham and Linda Peck Swisher) 123-131.
The Efficacy of Language Rehabilitation in Aphasia (Frederic L. Darley) 3-21.
Generalized Auditory Agnosia: The First Phase of Treatment (Gerald E. Chappell) 152-161.
Recovery from Aphasia as Monitored by AER Audiometry (Ira Kolman and Hiroshi Shimizu) 414-420.
Letter: Replies to Two Comments on "Objective Indices of Severity of Chronic Aphasia . . ." (Aaron Smith) 274-278.
Letter: Replies to Two Comments on "Objective Indices of Severity of Chronic Aphasia . . .": Addendum (Fred A. Mettler) 278-279.
Scaling Aphasics' Error Responses (Naida Davis and Edwin Leach) 305-313.
Use of a Baseline Probe Technique to Monitor the Test Responses of Aphasic Patients (Anthony P. Salvatore) 471-475.

Articulation
Changes in Phonatory Aspects of Glossectomee Intelligibility through Vocal Parameter Manipulation (Madge Skelly, Robert C. Donaldson, Rita Solovitz Fust, and Diana L. Townsend) 379-389.
Letter: Comment on "Neuromuscular Dysfunction and . . . Orofacial Problems" (Samuel G. Fletcher and David A. Daly) 139-140.
Letter: Comment on Transfer of Training in Articulation (Ronald Fahey) 424.
Disorders of Articulation: Some Clinical Applications of Distinctive Feature Theory (Evelyn Pollack and Norma S. Rees) 451-461.
Distinctive Feature Generalization in Articulation Training (Leija V. McReynolds and Shannon Bennett) 462-470.
Generalization in Operant Speech Therapy for Misarticulation (Heather Griffiths and W. Edward Craighead) 485-494.
Structuring Speech Therapy Contingencies with an Oral Apraxic Child (David A. Daly, Robert P. Cantrell, Mary Lynn Cantrell, and L. Alice Aman) 22-32.

Cerebral Palsy
Treatment of a Case of Cerebral Palsy with Hearing Impairment (James L. Fitch) 373-378.

Stuttering
Auditory Feedback as a Major Factor in Stuttering (Beverly A. Timmons and James P. Boudreau) 476-484.
Behavior Therapy and Psychoanalysis in the Treatment of a Severe Chronic Stutterer (Christopher Fried) 347-372.

The Effects of Response-Contingent Reward on the Connected Speech of Children Who Stutter (Candyce K. Shaw and William F. Shrum) 75-88.
A New Approach to the Classification and Measurement of Stuttering (Eleanor S. Wertheim) 242-251.
The Personal Reactions of a Stuttering Adult to Delayed Auditory Feedback (Robert B. McCabe and Judith Dane McCollum) 536-541.
Some Clinical Notes on Forced Stuttering (Oliver Bloodstein and Roberta Levy Shogan) 177-186.
A Stuttering Severity Instrument for Children and Adults (Glyndon D. Riley) 314-322.
The Use of Parent-Child Interaction Patterns in Therapy for Young Stutterers (Donald B. Egolf, George H. Shames, Peter R. Johnson, and Arlene Kasprisin-Burelli) 222-232.

Voice

Adult Voice Screening (Jeannette K. Laguaite) 147-151.
The Clinical Use of the Taub Oral Panendoscope in the Observation of Velopharyngeal Function (Clyde R. Willis and Martin L. Stutz) 495-502.
Contingencies for Bioelectronic Modification of Nasality (Samuel G. Fletcher) 329-346.
Conversion from Asai to Esophageal Speech (Robert C. Marshall) 262-266.
Diagnosis and Treatment of Voice Disorders in School Children (William M. Shearer) 215-221.
Effect of Prolonged Nasotracheal Intubation on Communication (Sally A. Bowman, James C. Shanks, and Marlow W. Manion) 403-406.
Effects of Adenoidectomy on the Speech of Children with Potential Velopharyngeal Dysfunction (Lucie I. Lawson, George Chierici, A. Castro, Egil P. Harvold, Earl R. Miller, and John Q. Owsley, Jr.) 390-402.
The Use of Crisis Intervention in the Rehabilitation of Laryngectomees (Virginia Sanchez-Salazar and Anne Stark) 323-328.

Language Delay

Bases of Decision in Language Training (Norman S. Rees) 283-304.
Letter: Establishing Verbal Imitation Skills and Functional Speech in Autistic Children: A Rebuttal to Benassi (Jurgen Hartung) 422-424.
Letter: Imitation and Functional Speech in Autistic Children: A Reply to Hartung (Victor Benassi) 421-422.
The Use of Written Language as a Communication System for an Autistic Child (Nancy R. Marshall and Jack Hegrenes) 258-261.
What Is Deviant Language? (Laurence B. Leonard) 427-446.

Speech and Language Disorders

Speech, Language, and Hearing Problems in the Laurence-Moon-Biedl Syndrome (Dean C. Garstecki, Thomas E. Borton, Earl W. Stark, and Brenda T. Kennedy) 407-413.

Dysarthria

Rehabilitation for Dysphagia Paralytica (George L. Larsen) 187-194.

Deaf Education

Letter: Quotations from Stark (John L. Locke) 141.

Other

Letter: Comment on "Functional Speech Disorders and Personality" (John Muma) 141-142.
Letter: Comment on "Neuromuscular Dysfunction and . . . Orofacial Problems" (Samuel G. Fletcher and David A. Daly) 139-140.

Language

Aphasia

The Efficacy of Language Rehabilitation in Aphasia (Frederic L. Darley) 3-21.
Generalized Auditory Agnosia: The First Phase of Treatment (Gerald E. Chappell) 152-161.
Letter: Replies to Two Comments on "Objective Indices of Severity of Chronic Aphasia . . ." (Aaron Smith) 274-278.
Letter: Replies to Two Comments on "Objective Indices of Severity of Chronic Aphasia . . .": Addendum (Fred A. Mettler) 278-279.

Language Development

Some Relationships between Measures of Early Language Development (Donald J. Sharf) 64-74.
What Is Deviant Language? (Laurence B. Leonard) 427-446.
When Are Speech Sounds Learned? (Eric K. Sander) 55-63.

General

Diagnostic Principles

The Bases of Speech Pathology and Audiology: What Are Appropriate Models? (Martin C. Schultz) 118-122.
Categorical Judgment and the Wepman Test of Auditory Discrimination (Frank R. Vellutino, Louis DeSetto, and Joseph A. Steger) 252-257.
The Clinical Use of the Taub Oral Panendoscope in the Observation of Velopharyngeal Function (Clyde R. Willis and Martin L. Stutz) 495-502.
A Comparison of Three Tests of Auditory Comprehension for Adult Aphasics (Leslie Smith Needham and Linda Peck Swisher) 123-131.
Disorders of Articulation: Some Clinical Applications of Distinctive Feature Theory (Evelyn Pollack and Norma S. Rees) 451-461.
Effects of Adenoidectomy on the Speech of Children with Potential Velopharyngeal Dysfunction (Lucile I. Lawson, George Chierici, A. Castro, Egil P. Harvold, Earl R. Miller, and John Q. Owsley, Jr.) 390-402.
Interrogation: A Model and Some Implications (Edwin Leach) 33-46.
A New Approach to the Classification and Measurement of Stuttering (Eleanor S. Wertheim) 242-251.
Scaling Aphasics' Error Responses (Naida Davis and Edwin Leach) 305-313.
Some Relationships between Measures of Early Language Development (Donald J. Sharf) 64-74.
A Stuttering Severity Instrument for Children and Adults (Glyndon D. Riley) 314-322.
Use of a Baseline Probe Technique to Monitor the Test Responses of Aphasic Patients (Anthony P. Salvatore) 471-475.

Therapeutic Principles

Aphasia Therapy: A New Look (Joseph M. Wepman) 203-214.
Bases of Decision in Language Training (Norma S. Rees) 285-304.
Behavior Therapy and Psychoanalysis in the Treatment of a Severe Chronic Stutterer (Christopher Fried) 347-372.
Changes in Phonatory Aspects of Glossectomee Intelligibility through Vocal Parameter Manipulation (Madge Skelly, Robert C. Donaldson, Rita Solovitz Fust, and Diana L. Townsend) 379-389.
Conversion from Asai to Esophageal Speech (Robert C. Marshall) 262-266.
Diagnosis and Treatment of Voice Disorders in School Children (William M. Shearer) 215-221.
Distinctive Feature Generalization in Articulation Training (Leija V. McReynolds and Shannon Bennett) 462-470.

Generalization in Operant Speech Therapy for Misarticulation (Heather Griffiths and W. Edward Craighead) 485-494.
Generalized Auditory Agnosia: The First Phase of Treatment (Gerald E. Chappell) 152-161.
Rehabilitation for Dysphagia Paralytica (George L. Larsen) 187-194.
Structuring Speech Therapy Contingencies with an Oral Apraxic Child (David A. Daly, Robert P. Cantrell, Mary Lynn Cantrell, and L. Alice Aman) 22-32.
The Use of Parent-Child Interaction Patterns in Therapy for Young Stutterers (Donald B. Egolf, George H. Shames, Peter R. Johnson, and Arlene Kasprisin-Burrelli) 222-232.
The Use of Written Language as a Communication System for an Autistic Child (Nancy R. Marshall and Jack Hegrenes) 258-261.

Other

The Bases of Speech Pathology and Audiology: What Are Appropriate Models? (Martin C. Schultz) 118-122.

Letters

Comment on "Functional Speech Disorders and Personality" (John Muma) 141-142.
Comment on "Neuromuscular Dysfunction and . . . Orofacial Problems" (Samuel G. Fletcher and David A. Daly) 139-140.
Comment on "Objective Indices of Severity of Chronic Aphasia in Stroke Patients" (Gerald J. Canter) 140-141.
Comment on Transfer of Training in Articulation (Ronald Fahey) 424.
Establishing Verbal Imitation Skills and Functional Speech in Autistic Children: A Rebuttal to Benassi (Jurgen Hartung) 422-424.
Imitation and Functional Speech in Autistic Children: A Reply to Hartung (Victor Benassi) 421-422.
More on Hearing Loss Secondary to Maternal Rubella (Thomas E. Borton and Earl W. Stark) 138-139.
Pediatric Hearing Evaluations (Thomas A. Zachman and Lynn Hahn) 274.
Quotations from Stark (John L. Locke) 141.
Replies to Two Comments on "Objective Indices of Severity of Chronic Aphasia . . ." (Aaron Smith) 274-278.
Replies to Two Comments on "Objective Indices of Severity of Chronic Aphasia": Addendum (Fred A. Mettler) 278-279.
The Use of AEA with Infants (Bruce A. Weber) 142-143.
